On behalf of the Board of Trustees of SNPET, Education Committee, faculty and students, I extend a very warm welcome to parents and families who embark on the very important decision, where to educate our child.

Sanjan Nagar Public Education Trust -Higher Secondary School (SNPET-HSS) is a wonderful institution for children aged 03 to 18 from play group to Grade 12.

Our school is framed by the holistic philosophy of the Trust and the IB Curriculum as an IB-PYP (Authorized) school. Our IB-initiatives have a deep and positive impact on students learning and all round achievements. We believe all students are active participants in their learning and should have all necessary information about their personal progress and challenges to assist them in their own learning pathways.

Our distributed leadership team and the Education Committee (EC) works collaboratively with the school faculty to meet, the best educational needs of every learner in our school. We have focused on quality literacy and numeracy programs in all classrooms; we encourage our students to strive for personal excellence, seeking meaning in all learning areas of the curriculum.

Our faculty and students actively live our school vision.

“To enable children and youth to become caring, knowledgeable, and creative citizens of tomorrow for the meaningful progress of our society through an affordable holistic education experience”.

Different workshops are held to teach the exchange students about life in USA. In Islamabad YES held a PDI’s (Pre-Departure Institute). These orientations are basically organized to have different academic and networking events with the exchange students to prepare them for a successful exchange year. It is an honor for me to be part of this program. I got this opportunity through my school Sanjan Nagar. It is not only a life changing opportunity but it will be an experience of my life for a full year with a host family. I’m really thankful to my school for providing me such a path of success through this wonderful opportunity.

11.1 Parent’s Voice

When I first decided to choose this school I wasn’t aware of the IBO system at all but after sometime I was happy to see the result. My children are now more confident, they are more creative and they are more sensible! Also this school made my other children confident too as the elder one taught them everything they learn. The biggest opportunity was that my eldest child "Shanzila”, got a chance to fulfill her dreams. Sanjan Nagar made my child enter an organization "YES"; they sent her to America, because of that she is making her dreams come true! I am thankful to Sanjan Nagar for enabling my children to show their talents to the world.
